

About Us!

The company holds an ISO 9001:2015 certification to achieve high quality standards. Zennex, a leading manufacturing company of Boilers & Pollution Control Equipments. Zennex aims to provide quality product at best competitive rates to the customers. We have gained good reputation amongst our customers by providing high quality product and fast efficient service.

AN ISO 9001 : 2015

CERTIFIED COMPANY

BOILER

**All type of
Thermic Fluid Heater Manufacturer**

One stop for Heating Solution

OUR MISSION

- ◆ Become a lean power train manufacturing plant focused on cost efficiency and product reliability with performance through:
 - Surpassing customers expectations of quality and delivery.
 - Innovative and sustainable processes focusing on prevention of natural resources.
 - Empowered and enthused work environment promoting core values.

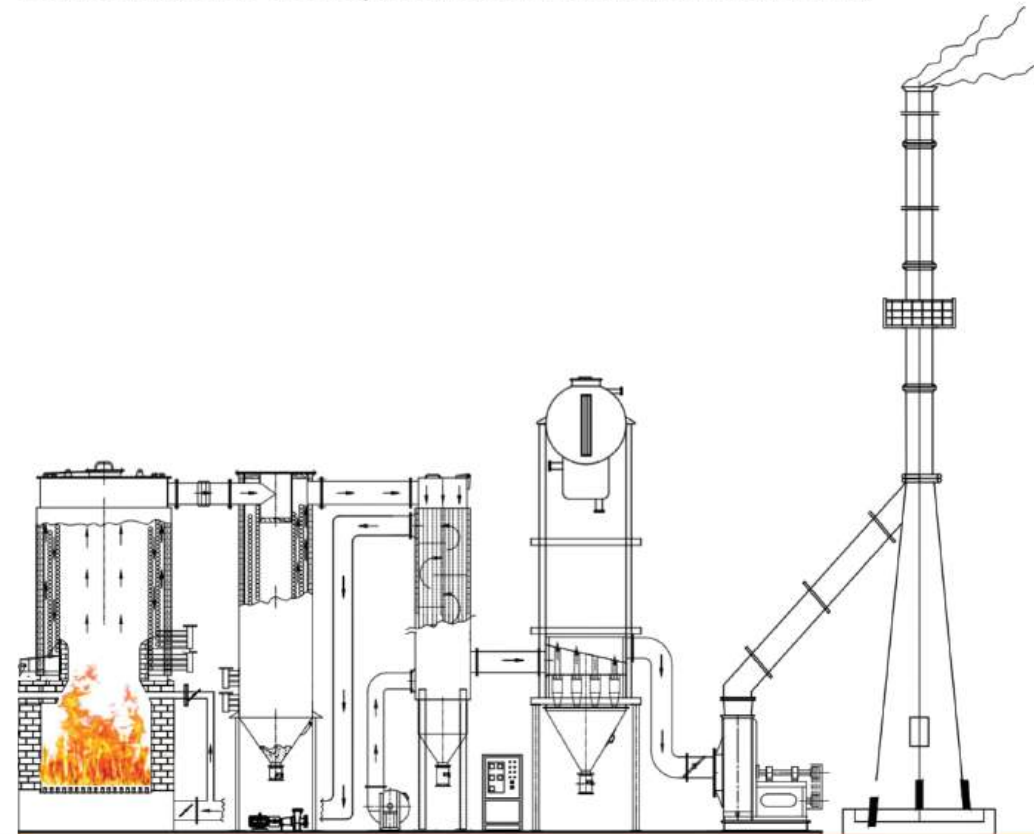

VISION

- ◆ At Zennex , Our each thought & effort is committed to deliver qualitative products and work in heating industry.
- ◆ Solutions we provide are efficient and Eco-friendly too, as we believe in sustainable development of environment and customer satisfaction.

CORE VALUES

- ◆ 10 Years of Industry Experience
- ◆ Timely Delivery
- ◆ Cost Effective Prices
- ◆ Team of Qualified and Dedicated Professionals
- ◆ Innovational Team Environment
- ◆ Responsible Management
- ◆ Excellency in Industry

Output Range :
50,000 to 30,00,000
Kcal/hr.

HORIZONTAL ZH SERIES

- ◆ Three pass Horizontal optimum heat recovery and best in class efficiency 87 ± 2 % approx.
- ◆ HORIZONTAL series is very compact design which required less space for installation.
- ◆ This series is suitable for Multi fuel options like HSD, LDO, Furnace oil, PNG , LPG and Wood pallet.
- ◆ Imported and high class component using of unit for Reduce breakdown, hence downtime of units and plan major shutdowns.
- ◆ HORIZONTAL series is a very convenient and easy to maintain for most efficient heat transfer.

Output Range :
2,00,000 to 12,00,000
Kcal/hr.

VERTEX SK ZV SERIES

- ◆ Use multiple fuels like Wood, Coal, Briquette and other Solid fuel with compatible sizes.
- ◆ All components in one frame for easy use and easy to install in one day. Minimum space required for installation for VERTEX SK thermic fluid heater.
- ◆ Fully automatic operated system.
- ◆ All required safety features and technical fault alarms in this design.
- ◆ Big economical saving and no pollution.
- ◆ No technical operator required to operate in this VERTEX SK series thermic fluid heater.

Output Range :
50,000 to 20,00,000
Kcal/hr.

FOODEX ZF SERIES

- ◆ FOODEX SERIES specially designed For Edible oil Heating Direct Edible oil Heating with almost 90% efficiency
- ◆ VERTEX Series is a very closed-packed design and easy for maintenance.
- ◆ This series is suitable for Multi fuel options like HSD, LDO, Furnace oil, PNG, LPG and Wood pallet.
- ◆ This series is design for particular minimum space allocation and flexible to install.
- ◆ We deliver capacities with suitable to Namkeen / Potato chips production capacity to get maximum production in food industries.

Output Range :
10,00,000 to 50,00,00,000
Kcal/hr.

FIVE PASS ZL SERIES

- ◆ Specially Developed 5 Pass design for Maximum heat recovery.
- ◆ Highest efficiency in this segment almost 82% with multi pass Air per heater.
- ◆ 5 Pass thermic fluid heater systems design in furnace for thunderstorm create of flue gas to try maximum heat use.
- ◆ This series is suitable for Multi fuel options like Wood, Coal, briquette, rice husk, wood pallet and all type of agro west.
- ◆ For best performance this series model should be installed with appropriate pollution control unit.

POLLUTION CONTROL EQUIPMENTS

- ◆ We Are supplied pollution control equipment comes with assurance to achieve pollution control board norms.
- ◆ Dealing in pollution control equipment like bag filter, wet scrubber, multi cyclone duct collector etc...
- ◆ We supplied systems with following norms of POLLUTION CONTROL BOARD.
- ◆ Supplying future technology with most eco-friendly solutions.
- ◆ Our supplied systems achieve SPM, high temperature, SO_x and NO_x level.

WHERE WE SERVE

- FOOD AND BEVERAGES INDUSTRY
- PRINTING AND PACKING INDUSTRY
- OIL AND REFINERIES INDUSTRY
- TEXTILE INDUSTRY
- PLAYWOOD AND LAMINETE INDUSTRY
- CHEMICAL AND PHARMACUTICALS INDUSTRY
- ROAD INDUSTRY
- RUBBER INDUSTRY
- BAKERY INDUSTRY
- & MANY MORE ...

GLOBALLY SUPPLIERS

- ESSAR
- TI
- ABB
- UDIAN CONTOLERS
- KSB PUMP
- MAS DAF PUMP
- DENFOSS
- BENTONE, UNIGAS, RIELLO
- SUNTEC FUEL PUMP
- FIDA, SIEMENS, L&T

IN HOUSE FACILITIES :

- AUTOMATED TIG WELDING
- AUTOMATIC COIL BENDING FACILITY
- HYDRAULIC SHELL BENDING MACHINE
- HIGH CAPACITY CRANES
- RADIAL DRILL MACHINE

OUR CERTIFICATION

We serve :

-  Thermic Fluid Heaters
-  Edible Oil Heater
-  Hot Water Generator
-  Steam Boiler
-  Hot Air Generator
-  Pollution Control Equipments
-  Oil and Gas Burner
-  Wood Pellet Burner
